SPRING 1895.

TO OUR FRIENDS AND CUSTOMERS.

In presenting you with our **Twelfth Annual Catalogue,** full of good things for the Vegetable Garden, Farm, Field and Flower Garden we desire to thank our many friends for their past liberal patronage and trust you will favor us with your orders for the coming season.

We have spared no pains in making our Catalogue as complete as possible, avoiding all lengthy descriptions. The varieties of seeds we catalogue are such as will meet the highest approval of the seed buying community. All seeds are selected with the greatest possible care, and are, as far as we can make them, true to name and of superior quality.

READ CAREFULLY BEFORE ORDERING.

OUR TERMS.

Cash With Order. No Goods sent C. O. D. unless one-half the cost is remitted with the order. Goods cannot be sent C. O. D. by freight.

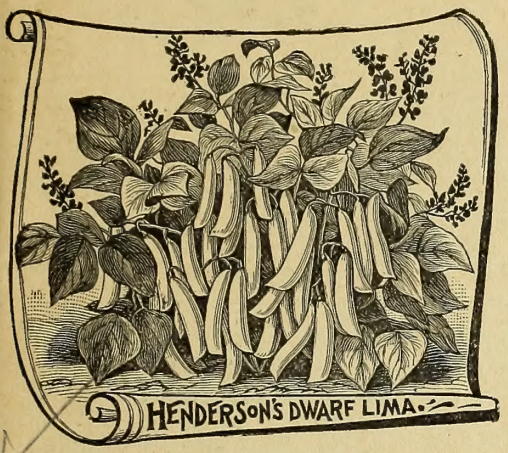
OUR NOVELTIES AND STANDARD VARIETIES OF SPECIAL MERIT FOR 1895.

Burpee's Bush Lima.

Grows 18 to 20 inches high, each bush bearing from 50 to 200 handsome large pods, well filled with very large beans which are **identical in size and luscious flavor with the well-known large Pole Limas, and comes absolutely true from seed.** By the introduction of this most valuable novelty, the largest and best Lima Beans can now be raised in quantity at small cost without the expense and labor attached to the use of poles. Pkt., 10c; ½ pint, 15c; pint, 25c; quart, 50c; peck, $3.00.



Dwarf Bush Lima--(Henderson.)

The True Bush Lima grows without the aid of stakes or poles in compact bush form, from 15 to 18 inches high, and produces enormous crops; can be as easily gathered as the common garden bush beans. The Bush Lima is at least two weeks earlier than any of the climbing Limas, and produces a continuous crop from the time it comes into bearing until frost. A very small patch will keep a family supplied with this splendid vegetable throughout the season. Try it. Packet, 10c; pint, 20c; quart, 35c; peck, $2.00.

Archias' Improved Superior Wax Bush Bean.

A Decided Improvement on the common Black wax bush bean, the result of careful selection. The plants are of good size and uniform and vigorous growth; free from runners; yields remarkable quantities of bright waxy yellow pods of uniform size, stringless, excellent flavor and unusually early. Pkt., 10c; pt., 20c; qt., 35c; peck, $1.75; bu., $6.50.

Excellent Bush Bean.

Wardwell's Kidney Wax.—The vines of this variety are very large, strong growing and vigorous, yielding a large crop of long, nearly straight, handsome, very white and wax-like pods. They are of good quality and on this acccount, as well as their beauty of form and color, are easily sold, even when most sorts are a drug. They ripen about with the Golden Wax. The dry beans are large, kidney shaped, white, with dark markings about the eye. The best for market gardeners. Liberal pkg., 10c; pt., 20c; qt., 30c; pk., $1.75; bu., $6.50.

POLE BEANS.

Archias' Improved Kentucky Wonder.

Here we are! Just what you have been looking for! This we regard as far ahead of any other green Pole Bean. In our trial grounds last summer it was fit for the table on August 1st, which was at least ten days earlier than any other green sort. It is enormously productive, the pods hanging in great clusters from top to bottom of pole. It is entirely stringless, and the pods are a silvery green color. The pods, though large, cook tender and melting. Per pkt., 10c; pt., 25c; qt., 45c.

Take the Wilmer Atkinson **Farm Journal** 50 Cents a Year

It will be sent one year to any one ordering seeds or plants from this catalogue to the amount of $1.00 or over. Be sure and say you want it.

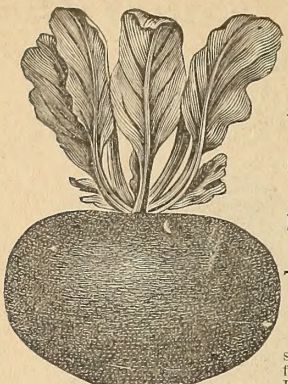
LAZY WIFE'S POLE BEANS

This new pole bean has become immensely popular throughout the entire country. We presume it derived its name, which seems to us rather discourteous, from its immense productiveness, making it very easy to gather a dish, and from the ease with which they are cooked. The pods, of a medium dark green color, are produced in great abundance, and measure from 4½ to 6 inches in length; they are broad, thick, **very fleshy,** and **entirely stringless.** The pods retain their rich, tender and stringless qualities until nearly ripe, and at all stages UNSURPASSED FOR SNAP SHORTS, being peculiarly LUSCIOUS. Each pod contains from six to eight round, white beans, which make excellent winter shell beans. The plants stick well to the poles, and the vines are covered all summer with clusters of handsome pods. They have also yielded well planted among corn. **Most highly recommended,** Pkt., 10c; pint, 25c; qt., 45 c.

PIERCE CITY, MO.

L. E. ARCHIAS & BRO.—Gentlemen:
Enclosed please find remittance for $2.50. Order was satisfactory. Very truly,

A. M. VANCE.



BEET

Archias' Improved BLOOD TURNIP.

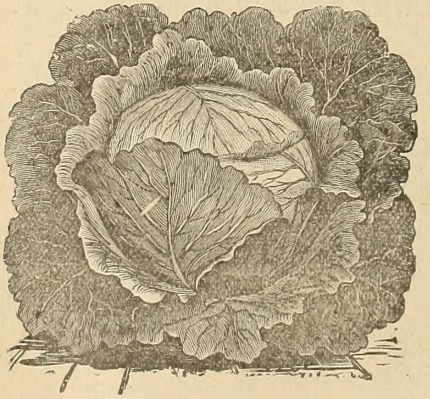
Fine turnip form, very symmetrical in shape, and free from any fibrous roots. Flesh deep blood-red, very tender and sweet; grows uniformly to a good size. Early, and when sown late desirable for winter. Per pkt., 5c; oz., 10c; ¼ lb., 20c; per lb., 60c.

CABBAGE.

ARCHAIS' NEW EXTRA EARLY.

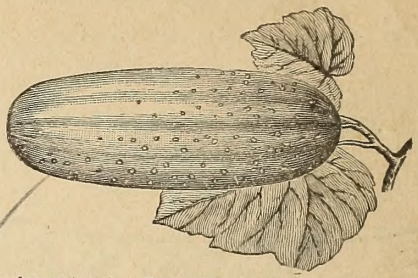
Earliest Cabbage in the world. This new and very early cabbage, while not as large as the Jersey Wakefield, is several days earlier, and for a first early variety cannot be excelled. It resembles the Etampes in character and appearance, having solid, compact heads of conical form of yellowish-green color; very dwarf and very uniform. Desirable as a quick forcing sort. Pkt., 5c; oz., 30c; ¼ lb., 80c; lb., $3.00.

ARCHIAS' IMPROVED LARGE LATE FLAT DUTCH CABBAGE



A superior strain of the Late Flat Dutch Cabbage, grown expressly for us. This variety will never fail to give entire satisfaction to the grower; its growth is uniform, producing heads of immense size and unusual solidity. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., $2.75.

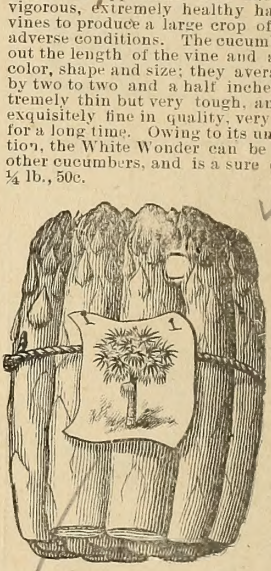
LIVINGSTON'S EVERGREEN CUCUMBER.



Livingston's Evergreen. This new cucumber is quite distinct from the Evergreen White Spine. It more nearly resembles Nichol's Medium Green, equally as smooth and handsome, but does not turn yellow quickly when exposed for sale, as does that otherwise excellent sort. It is early, of strong, vigorous growth, withstanding drouth, and is very prolific, bearing abundantly until frost. It possesses every qualification of a perfect pickle sort, and the firm, crisp fruits are also excellent for slicing. Per pkt., 5c; oz., 10c; ¼ lb., 25c; per lb., 75c.

BURPEE'S WHITE WONDER CUCUMBER.

The White Wonder surpasses the White Pearl, both in handsome appearance and fine quality, while its strong, vigorous, extremely healthy habit of growth enables the vines to produce a large crop of perfect fruit, even under adverse conditions. The cucumbers are thickly set throughout the length of the vine and are remarkably uniform in color, shape and size; they average about eight inches long by two to two and a half inches through; the skin is extremely thin but very tough, and the pearly white flesh is exquisitely fine in quality, very brittle, and remains solid for a long time. Owing to its unusual hardness of constitution, the White Wonder can be planted earlier than most other cucumbers, and is a sure cropper. Pkt., 5c; oz., 15c; ¼ lb., 50c.



Palmetto Asparagus.

Introduced by John Nix Esq., one of the largest growers in the the South. He claims for it earliness great yield, evenness of growth and superior quality. Pkt., 5c; oz., 15c; ¼ lb. 25c; lb., 80c.

GOLDEN SELF-BLEACHING CELERY.

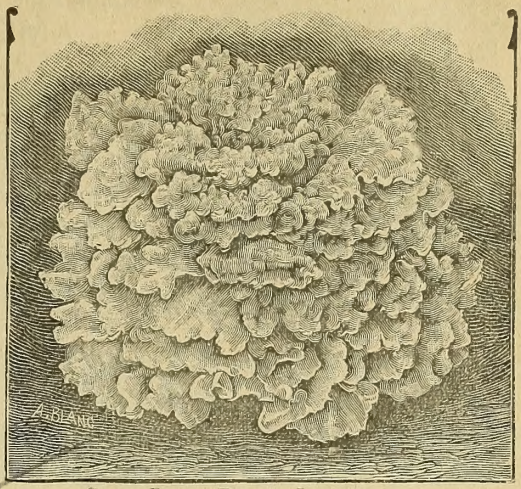
The ribs are perfectly solid, crisp, brittle and of delicious flavor, surpassed by no other variety, while it has the decided merit of being self-bleaching to a remarkable degree. Pkt., 5c; oz., 30c; ¼ lb., 80c; lb., $3.00.

TWO GRAND NEW VARIETIES OF LETTUCE

Take the Farm Journal
Wilmer Atkinson
50 Cts. a Year
It will be sent one year to any one ordering seeds or plants from this catalogue to the amount of $1.00 or over. Be sure and say you want it.

Grand Rapids FORCING LETTUCE.

As many as fifty large greenhouses at Grand Rapids, Mich., are devoted to forcing this lettuce in winter; the growers have distanced all competitors and obtained the highest prices in the markets of all the cities to which they have shipped. Of superior quality and beautiful appearance, the Grand Rapids Lettuce is a strong grower, free from rot, and keeps crisp and tender without wilting, when exposed for sale, longer than any other forcing lettuce. We have also found it a desirable variety for early spring sowing in the open ground. Per pkt., 5c; oz., 15c; ¼ lb., 40c; per lb., $1.25.

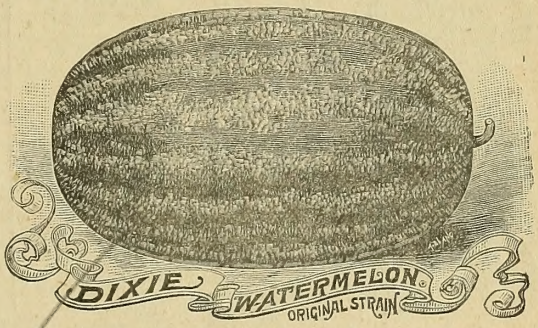


GRAND RAPIDS FORCING LETTUCE.

DENVER MARKET LETTUCE.

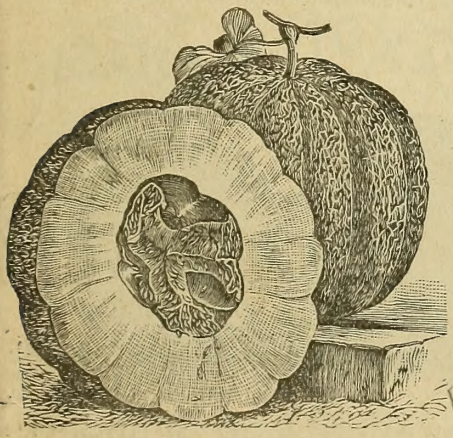
Denver Market Lettuce.

An early variety either for forcing or open ground. Large, solid heads, of a good, light green color, and is very slow to go to seed. The leaves are crisp and tender and of excellent flavor. The shape of the head resembles somewhat the "Hanson," but is more oblong. Pkt. 5c.; oz. 15c.; ¼ lb. 40c.; lb. $1.25.



Improved Long Dixie.

A decided improvement over the original Dixie. It is giving better satisfaction among shippers than the Kolb's Gem, being longer and larger; hence more desirable for shipping; loads well and presents a good appearance in the car or when exposed for sale. It is darker and more beautifully striped then the Kolb's Gem. While none surpass it for shipping, few, if any, equal it for the table, the flesh being very red, sweet and juicy, it is all that can be desired in quality, flavor, etc. We wish to call the shipper's attention to the fact that this melon will HOLD, after it is ripe, for days and still retain its excellent qualities. This is a decided advantage because the melons may be left to ripen on the vines, or may be detained while enroute to market, as is often the case, and still bring the highest market prices when offered for sale, which is very satisfactory to both shipper and seller. Shippers who have had returns from cars of over-ripe melons will fully appreciate this point. Long Dixies after being picked and laid in the sun ten days, open, juicy and of excellent quality. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.; lb. 75c; 3 lbs., $1.80.



SHUMWAY'S GIANT.

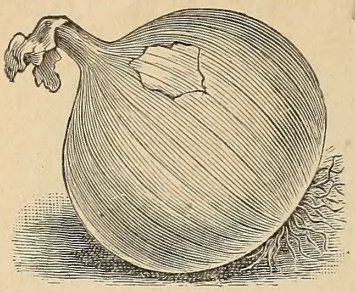
New Muskmelon--SHUMWAY'S GIANT.

A new melon of monstrous size, averaging 20 lbs. each. It ripens early, flesh salmon color, never stringy, and of very fine flavor. It is quite distinct from other melons, the seed being more than twice as large. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.; lb. 75c.

ARCHIAS' IMPROVED DARK ICING WATERMELON.

This is an improvement on the old well known reliable type of Dark Icing. It is of round form, white seeded. This fine melon can scarcely be praised to highly, on account of its solidity, thin rind, RICH, LUSCIOUS, SUGARY FLAVOR. Our seed has been selected with unusal care, all from dark-skinned melons. Per pkt. 5 cts.; oz. 10c.; ¼ lb. 25 cts.; per lb. 70 cts.; 3 lbs. $1.75,

We are in Position to Furnish Large Quantities of Watermelon Seed.



Giant Prize Taker Onion.

AMERICAN GROWN SEEDS.

This new, handsome variety is a splendid type of the celebrated Spanish fancy onions which are annually imported into the United States from Spain and sold by confectioners and fruiters in our large cities at from 25 to 50 cents each, and even higher. The onions grown here quite rival the imported ones in great beauty and enormous size, weighing in many cases from 3 to 3¼ pounds each. Hundreds of growers agree in pronouncing the Prize Taker the largest, handsomest and most wonderful variety they have ever grown. The outside skin is of a rich yellow color, while the flesh is white, globe shape, and so sweet, mild and tender that they can be eaten like an apple. Pkt, 5c.; oz. 25c., ¼ lb. 75c.; lb. $2.50.

Archias' Improved Extra Early Red Onion—A good, medium sized, flat variety, very uniform in shape; smaller than Red Wethersfield, but about two weeks earlier; abundant producer, good keeper; very desirable for early market, and good where seasons are short on account of its rapid growth requiring short time to mature it; it also GROWS A HANDSOME SHAPED SET when planted very thick. Pkt. 5c.; oz. 15c.; ¼ lb. 50c.; lb. $1.75.

2—Of Our Leading Specialties—2

ONION {Yellow Globe Danvers / Large Red Wethersfield} ONION

There are no better strains of these popular main crop varieties than we offer. We sell them in lots of 25, 50 and 100 pounds to single growers. Those buying large quantities of Onion Seed will please write for lowest prices, stating varieties and quantities. We will not be undersold for fine stock, our seeds being especially grown for us in the finest onion seed growing section in America. Plant them once, plant them always. Order now! Don't delay.

Market Gardener's

Early Long

Scarlet Radish.

This is a radish with every quality essential to perfection. It is of unusual quick growth, brittle, tender and sweet, the earliest of all long varieties. Pkt. 5c.; oz. 10c.; ¼lb, 30c.; lb. $1.00.

A WONDERFUL TOMATO.

The Mansfield Mammoth Tree Tomato.

After a thorough trial, we have found this Tomato to be the greatest wonder of the age. The fruit is of mammoth size, flesh very thick, excellent flavor, ripens well up to the stem, color dark red, tough skin. It bears well throughout the entire summer, holding its large size during severe drouth while all other varieties are dried up; it continues to bear its fruit with the greatest vigor until killed by the frost. Shape round and smooth, occasionally one is slightly ribbed. The yield of this Tomato is simply enormous, one bushel having been picked off a single plant in one picking. Well cultivated plants have attained the height of 10 feet and 9 feet across. The Mansfield should not be classed with other so called tree tomatoes, of some houses, as it is the only genuine tomato of the kind now existing. We have a fine stock of seeds, price 10c. per pkt.; 3 pkts. 25c. by mail postpaid. Send in your orders early and secure the seed of this wonderful Tomato.

PUMPKIN—Archias Mammoth Southern Field.

Sure to yield good crops where most other varieties fail. It is always a prize winner at every fair and exhibition. The flesh is of a bright golden color; very fine grained; excellent quality and notwithstanding its enormous size is one of the best pie and table Pumpkins grown. A splendid keeper, valuable for feeding purposes. Our stock seed is saved from prize specimens. Don't fail to try it. Lb., 75c; ½ lb., 40c; ¼ lb., 25c; oz., 10c; pkt., 5c.

Have cooked the Faxon Squash in every shape; find it superior to anything I ever heard of. It can be cooked young or ripe; very rich, quick to cook, great yielder; certainly a wonderful vegetable, even better than represented. I would not do without the Faxon for any reasonable consideration. W. H. H. SMITH, Carthage, Mo.

From two hills I raised 44 fine Faxon Squa They are the finest I ever ate.

THE FAXON SQUASH

COPYRIGHT, 1893, BY M.B. FAXON CO.

DON'T Fail to add this Excellent and Wonderful Squash to your garden.

Flesh deep orange yellow, cavity very small and few seeds. While uncooked it appears to have a shell like any other squash; when cooked there is practically none, the shell or inedible part being only about as thick as a sheet of writing paper. It is sweet and very dry, and for squash pies it must be tried to be appreciated. A distinctive feature of this squash is that the ripe squashes vary in color, some of them being pale yellow with still paler yellow stripes in the hollows, while others are green, mottled, and faintly striped with a lighter green. It is of superior quality without regard to size or whether it is ripe or green, and may be used either as a summer or winter squash, specimens having been kept in perfect condition until April and May. Per pkt., 10c; 3 pkts., 25c; oz., 20c; ¼ lb., 60c

Vegetable Plants AND ROOTS.

These plants are grown from the best varieties of seeds and tubers of our own careful selections and can be relied on as first-class. They are grown so as to be very hardy, having stout, short thick stems, well rooted, so they can bear transplanting without danger.

Our extensive experience in growing and packing enables us to ship long distances without the least danger of damage from bruise, heat or cold, should they be on the way five or six days. We invariably add extras free of cost to help pay expenses of transportation. No extra charge for boxing and packing.

ALL ORDERS MUST BE ACCOMPANIED BY CASH TO INSURE PROMPT ATTENTION.

COLVILLE, ARK., Bent Co., March 11th, 1894.

GENTLEMEN:
I was well pleased with your Garden Seeds last year.
Respectfully,

FRANCIS B. NICHOL.

Garden Peas.

For an early crop of peas, plant them as soon in the spring as the ground can be worked, in light rich soil. For private family use, sow in double rows eight inches apart; cover two to three inches deep. Use none but well rotted manure for peas. Our peas are superior in quality to any other sold in this market, being well selected.

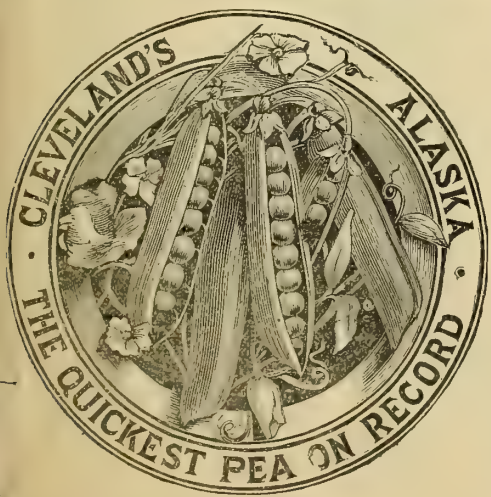
ARHCIAS' EXTRA EARLY.

Archias' Extra Early—As to earliness, uniformity in ripening, and productiveness, this pea leads them all, and is the production of several years of careful selection; it ripens in about forty days, grows about eighteen inches high, pods well filled and of good quality. Pkt., 10c; pt, 15c; qt., 25c; pk., $1.50; bu., $5.00.

American Wonder—One of the earliest wrinkled sorts, about nine inches high, very productive and sweet. Pkt., 10c; pt., 20c; qt., 30c. pk., $1.75; bu., $6.00.

Landreth's Extra Early—This is a well established variety, and has been sold for many years with exceedingly pleasing results; it always recommends itself with those who plant it. It matures edible pods forty-five days from germination. Very productive; height eighteen to twenty-four inches; best for market gardeners. Pkt., 10c; pt., 15c; qt., 25c; pk., $1.50; bu., $5 00.

McLean's Little Gem—Seeds green, wrinkled, height one foot, second early, very prolific, excellent flavor. Fine for family garden. Pkt., 10c; pt., 15c; qt., 25c; pk., $1.50; bu., $5.50.



ALASKA TRUE.

Alaska True—The earliest blue pea, very uniform in growth. It can be carried long ditances without losing color, which quality, combined with its earliness and uniformity of ripening, makes it a most desirable early pea for market gardeners and shippers. Height, two feet. Pkt., 10c; pt., 15c; qt., 25c; pk., $1.50; bu., $5.00.

Tom Thumb Improved—A well known dwarf Pea. Pkt. 10c; pt. 15c; qt. 25c.

ARCHIAS' RELIABLE TESTED CABBAGE SEED.

Our Cabbage Seeds are carefully selected and none in our list will fail to give perfect satisfaction, with proper treatment. For early cabbage, sow in hot-beds during the latter part of February, or the first of March. Transplant as soon as ground is ready. When plants are large enough, set in rows two feet apart, and twenty inches apart in the rows. Sow late varieties first part of July. Ground should be deeply dug and well manured in the fall to insure best result in cabbage raising, and same preparation repeated in early spring. Plant late cabbage two and a half feet apart each way.

First Early Varieties.

We call attention to our——

Archias New Extra Early Cabbage;

which will be found in front part of this catalogue in Novelties. None should miss this grand opportunity in procuring the earliest cabbage on earth.

Our Onion Seeds have the reputation of being the best sold in this country, having given general satisfaction in producing crops of fine, large, uniform sized onions of superior flavor. They are not to be classed with the cheap inferior seed quoted in some catalogues under high colors The price of our onion seeds will be found as low as good seed can possibly be sold for. Onions are a paying crop when good seed is procured and proper culture given. Our onion seeds produce large onions the first year. Onion Seeds in any quantity sent by mail, postage free, on receipt of prices given.

If to be sent by express, deduct at the rate of eight cents per pound from prices given.

Wild Flower Garden Mixture.

These mixed flower seeds embrace more than a hundred varieties of such easy growing and pretty flowers as are suitable for forming a wild flower garden. They are very useful for woodland walks, roadsides, railroad embankments, and for sowing alongside of fences and along any untidy, bare spot of ground which are so frequently unsightly and which, if properly cared for and kept free from weeds, can be made to produce a continual display of bloom during the summer. Per pkt. 10c; oz. 25c; ¼lb 75c.

Imported Dutch Bulbs for Fall Planting.

In the fall we have a complete and well selected assortment of Dutch Bulbs, our own importation direct from the best bulb growers in Holland and elsewhere, and they are always No. 1 quality. Our assortment consists of Hyacinths, Tulips, Crocuses, Narcissus, Lilies, Crown Imperials, Snowdrops, Anemonies, etc., all of which should invariably be planted in the fall. Bulb catalogues and price list ready in September and mailed free to all applicants.

OTAHEITE ORANGE PLANTS

This valuable and distinct variety of the Orange family is a dwarf, compact grower, with glossy, deep-green foliage,

which has a decided odor of the orange trees of Florida, producing a wonderful profusion of pure white flowers of the most delicious fragrance, identical with the much sought-for blooms of Southern orange groves. Otaheite fruits immediately after flowering, bearing fruit about one-half the size of the ordinary orange, unequaled as a winter-blooming pot plant for house of easiest culture. Requires little sunlight, flowers and fruits when but twelve to fifteen inches high. As a pot plant this lovely dwarf orange is one of the most novel and beautiful grown. We have grown a large stock of clean, vigorous plants, that will bloom and fruit at once, of this beautiful Orange, and commend it to our friends as a novelty of sterling worth and merit. Strong plants, postpaid, 20c each; 3 for 50c.

LILIUM AURATUM

(The Golden Banded Lily of Japan.) Immense white flowers each petal marked with a wide gold band and spotted with maroon; very free blooming. It is considered by many the finest of them all. Strong flowering bulbs; each, 30c.; per doz., $3.

MADEIRA VINE ROOTS.

Ten cents each; 3 for 25c; doz. 75c.

TALL DOUBLE TUBEROSES.

Extra Size Bulbs--Each 10c; per doz. 50c; per 100 $3.

DOUBLE PEARL TUBEROSES

Grows only twenty to twenty-four inches high. Flowers are imbricated like a double Camellia, very large.

Extra Size Bulbs--Each 10c; per doz. 50c; per 100, $3.

The price per single bulb includes postage or free delivery.

ARCHIAS' SELECTED PEDIGREE FIELD CORNS NEVER FAIL TO FILL THE CRIB.

We make it an invariable rule to test our Seed Corn carefully before sending out, and our customers may depend on getting Seed Corn that will grow perfectly under favorable circumstances.

The Leaming Yellow.

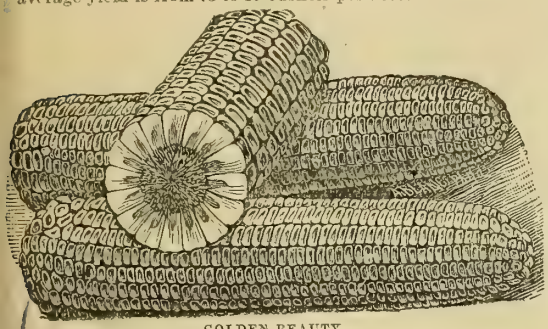
Qt. 10c: peck, 25c; bu. $1.25.

A Yellow Dent variety; very small red cob, with a deep, long grain, of a rich golden color, matures a crop in NINETY DAYS, and will if planted by the 1st of June, under ordinary culture, grow, ripen and be fit to husk and crib by September 1st. Very productive, yielding from 90 to 100 bushels to the acre.

Murdock's Favorite or Ninety Day.

Qt. 10c; peck 35c bu. $1.25.

This is a medium sized, extra early and exceedingly handsome Yellow Dent variety, with deep, rich oily grain and small red cob. Will mature in from 85 to 100 days, average yield is from 75 to 80 bushels per acre.



GOLDEN BEAUTY.

Golden Beauty—Very large grains, cob small and well filled, early and very productive. Ears very large, Qt. 10c; pk. 60c; bu. $1.50.

White Giant Normandy.

Qt. 10c; pk. 35c; bu. $1.25.

An excellent late White Dent variety, grain very large and long, pearl white; cobs very small; stands drouth well, producing as high as 150 bushels per acre. Wherever exhibited at fairs or exhibitions, it takes the premium for being the largest and finest White Dent Corn.

St. Charles White.—An old well known variety, early and productive, ears of ordinary size, plump and well filled grain very white. Qt. 10c; pk. 50c; bu, $1.50.

Champion White Pearl—(100 days) The stock is short and thick. The ears grow low on the stalk, from 7 to 12 inches in length. The grains are very deep, two grains will more than span the cob. By a test, seventy ears weighed eighty seven pounds, of which the cobs alone weighed only seven pounds. It makes a superior quality of corn meal. We recommend it highly. Qt. 10c; ¼ bu. 40c; bu. $1.25.

Hickory King—This new corn is entirely distinct from all other varieties, having the largest grain with the smallest cob ever introduced in a white corn. Stalks bear two good ears each and occasionally three. A single grain will completely cover the cob on an ear broken in half, will make more shelled corn to a given bulk of ears than any other variety. Qt. 10c; ¼ bu. 50c; bu. $1.50.

Liberal sample packet of any of the above seed corns, post paid 10c. Write for special prices.

Pop Corn

Rice Pop Corn—5c per selected ear. 3 ears 10c; Pkt. shelled 10c., postpaid.

Queen Golden—This new sort is by far the largest eared and best of all for popping. It grows about six feet in height, bears three to four good ears to stalk. Ear 5c; 3 ears 10c; pkt, shelled 10c postpaid.

Prolific Cream—A well known variety. Pops readily. Ear 5c; 3 ears 10c; pkt. shelled 10c postpaid.

New Red Rice—Large thick ears, four to six on stalk, very attractive. Pkt. 10c; 3 pkts. 25c.

Broom Corn.

Improved Evergreen—Long straight straw 5c, lb; 60c, pk; $1.75. bu. (48lbs.)

California Golden—An excellent standard variety, grows a very fine brush of good length, and is free from the large center stem. Bleaches very evenly even in the sun. Lb. 5c; pk. 60c; bu. $1.50.

Seed Oats.

Red Rust Proof, or Texas Red—A hardy oat, supposed to be more free from rust than any other variety. Sample pkt. 10c postpaid.

Common—Red, Gray, Black and White at market prices.

Seed Rye.

Black and white at the lowest market prices.

Buckwheat.

Common—Old reliable variety, market prices.

New Japanese.—This the most productive of all buckwheat, a week earlier then Silver Hull and the yield is nearly double, the kernels are twice as large as any other variety and of a richer color, best for bees. lb 10c,; pk 50c; bu. $1.50.

Silver Hull.—Improved variety. 50c. pk; bu, $1.50 (52 lbs.)

Cane Seed Sorghum.

Early Amber—5c. lb; 50c. pk; $1.50 bu (50 lbs.)

Early Orange.—Best for the South. 5c. lb; 40c. pk; $1.20 bu (50lbs.)

Silver Drip—Seed white, a few days later than Early Orange, makes a fine quality of Sorghum. 5c lb; 40c, pk; $1.20 bu.

Cane Seed for Fodder—Price on application.

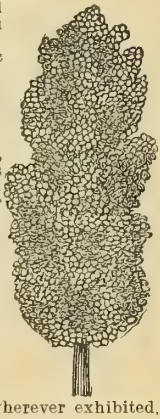
Stock Peas

White Black Eye—10c. lb; 60c, pk; $2. bu (60lbs.)

Cow or Clay—10c lb; 60c pk; $2. bu (60lbs.)

Whip-poor-will—Brown speckled pea, bush variety. 10c. lb, 60c; pk $2 bu (60 lbs.)

Yellow Sugar Crowder—10c lb; 50c pk; $1.75 bu. (60 lbs.)



Non-Saccharine Surghums.

These varieties bear dry weather well. They grow on any land where corn will, even on land too poor for corn. It takes from five to six pounds to plant one acre.

KAFFIR CORN—Per lb. 10c; 60c per pk; $2.00 bu.

WHITE BRANCHING DHOURA, (White Milo Maize)—Per lb. 10c; 60c pk; $2.00 bu.

YELLOW BRANCHING DHOURA, (Yellow Milo Maize)—Per lb. 10c; 60c pk; $2.00 bu.

The Best and Most Complete Assortment

Of Grape Vines in Missouri,

and having originated a number of varieties with purely native Southwestern blood, that made a fine crop in the season of 1894, when Concord and even Norton in same vineyard proved almost a failure, I feel confident to be able to furnish grape vines pleasing every one, and being suitable for all purposes. Have

Vines Suitable Especially for Arbors and Shades,

——and am also agent for——

Prof. T. V. Munson, of Denison, Texas,

The most scientific and most successful breeder of native grapes.

Prompt and careful attention given to all orders addressed to

HERMANN JAEGER,

Neosho, Mo.

Read the following Testimonials:

I am glad you finally consented to give a name worthy of it to your Lincecumii (Post Oak). Rupestris Hybrid No. 70. All things considered "T. V. Munson" is the best grape vine ever produced for our western and southwestern states, where we suffer so often from extremes of heat, drouth and cold. . . . . T. V. Munson produces an abundance of most excellent claret, and yields fine crops where other varieties fail completely.

ALTUS, Ark., Dec. 15th, 1894. JOSEPH BACHMANN.

Many thanks for the wine of "T. V. Munson" (formerly Jaeger's No. 70) sent. It arrived in good condition and its quality is fine, with excellent flavor. I will want more plants next season. Of those I got of you last spring, over 90 per cent grew and now live, notwithstanding the fact that they experienced the most trying season. Late frosts and extreme drouth killed nearly all other vines planted at same time. Shall set out many more "T. V. Munson" plants next spring.

HUMBOLDT, Neb., Dec. 5, 1894. PAUL NEMESCHEK.

One quart bottle of claret made from "T V. Munson" grapes, vintage 1894, together with one rooted vine, sent as sample free of express to any person remitting $1 to HERMAN JAEGER, Neosho, Mo.

DESCRIPTION.

Munson (Lincecumii Rupestris) Syn. Jaeger's No. 70.—It was produced by Hermann Jaeger at Nrosho, Mo., by fertilizing Linecumii or Post-Oak (No. 43) with pollen of a male vine of the species Vitis Rupestris.

Combines the vigor, deeply penetrating roots, with resistance to rot as well as to extremes of drouth, heat and cold. It stood without injury a blizzard with a temperature of 27 degrees below zero that killed the eyes of Concord, Ives and Norton vines in its immediate vicinity.

Professor T. V. Munson wrote (February, 1894): "I think it quite proper and would feel honored in having your No. 70 bear my name."

The wood, foliage and fruit of this variety, with large clusters and berries of its female parent, plainly show the blending of the two widely varying species, and anyone familiar with Rupestris and Post-Oak vines will admit that it is impossible to combine greater resistance to cold, heat and drouth.

The vine is fertile to a fault, inheriting from its male parent the faculty of producing three bearing shoots from each bud, desides fertile ones from old wood.

Bunch and grapes are black, about the size of Ives, or a little smaller, and mostly less compact.

Ripens about two weeks before Norton and hangs persistently to the vine.

It yields a claret wine of good body and ruby color, having just enough of the peculiar Lincecumii flavor to be admired by many for its fruity taste.

In France, Mr. Contusson, of Aubenas has produced a hybrid from this, the "Munson," and a French grape, which was awarded first prize, gold medal, in competition with best French clarets.
